35.-37. (Omitted in original application)

13 38. (Amended) The combined fabric wrap and carry bag of claim 30 ⁸ ~~44~~, wherein the first piece of fabric is generally rectangular with four side edges and wherein the first pocket and the second piece of fabric are proximal different side edges.

14 39. (Amended) The combined fabric wrap and carry bag of claim 30 ⁸ ~~44~~, wherein the first pocket and the second piece of fabric are located proximal opposite side edges of the first piece of fabric.

1 40. (Amended) A combined fabric wrap and carry bag comprising: The combined fabric wrap and carry bag of claim 10.

a first piece of fabric having at least a first corner;

a separate second piece of fabric smaller than the first piece, overlapped on the first piece and affixed to the first piece on all but one free edge to form a first pocket having a mouth; and,

at least one carrying strap having at least one end affixed at least proximal the mouth,

whereby the second piece of fabric inverts inside-out relative to the first piece of fabric to form with at least a portion of the first corner of the first piece of fabric a carry bag into which a remainder of the first piece of fabric may be inserted;

wherein a second end of the at least one carrying strap is captured between the first piece of fabric and the second piece of fabric; and

wherein the at least one carrying strap is at least a foot long and only partially protrudes from the pocket without the second piece of fabric being inverted.

3 41. (Amended) A combined fabric wrap and carry bag comprising: The combined fabric wrap and carry bag of claim 11.

a first piece of fabric having at least a first corner;

a separate second piece of fabric smaller than the first piece, overlapped on the first piece and affixed to the first piece on all but one free edge to form a first pocket having a mouth;

at least one carrying strap having at least one end affixed at least proximal the mouth;

a second carrying strap affixed at a first end to the one of the first piece of fabric and second piece of fabric proximal the free edge of the second piece of fabric and at a second end

between the first piece of fabric and the second piece of fabric where the first piece of fabric and the second piece of fabric are irremovably secured together;

whereby the second piece of fabric inverts inside-out relative to the first piece of fabric to form with at least a portion of the first corner of the first piece of fabric a carry bag into which a remainder of the first piece of fabric may be inserted; and

wherein the at least one carrying strap is at least a foot long and only partially protrudes from the pocket without the second piece of fabric being inverted.

4 42. (Amended) A combined fabric wrap and carry bag comprising: The combined fabric wrap and carry bag of claim 13.

a first piece of fabric having at least a first corner;

a separate second piece of fabric smaller than the first piece, overlapped on the first piece and affixed to the first piece on all but one free edge to form a first pocket having a mouth; and,

at least one carrying strap having at least one end affixed at least proximal the mouth,

whereby the second piece of fabric inverts inside-out relative to the first piece of fabric to form with at least a portion of the first corner of the first piece of fabric a carry bag into which a remainder of the first piece of fabric may be inserted;

wherein a second end of the at least one carrying strap is captured between the first piece of fabric and the second piece of fabric;

wherein the second end of the at least one carrying strap is captured inside the carry bag where the first piece of fabric and the second piece of fabric are immovably secured together; and

wherein the at least one carrying strap is at least a foot long and only partially protrudes from the pocket without the second piece of fabric being inverted.

5 43. (Amended) A combined fabric wrap and carry bag comprising: The combined fabric wrap and carry bag of claim 16.

a first piece of fabric having at least a first corner;

a separate second piece of fabric smaller than the first piece, overlapped on the first piece and affixed to the first piece on all but one free edge to form a first pocket having a mouth;

at least one carrying strap having at least one end affixed at least proximal the mouth; and

a second pocket attached to the first piece proximate a second free edge of the first piece, the second free edge being opposite a first free edge of the first piece proximate the first free edge of the second piece where the first piece of fabric and the second piece of fabric are irremovably secured together;

whereby the second piece of fabric inverts inside-out relative to the first piece of fabric to form with at least a portion of the first corner of the first piece of fabric a carry bag into which a remainder of the first piece of fabric may be inserted; and

wherein the at least one carrying strap is at least a foot long and only partially protrudes from the pocket without the second piece of fabric being inverted.

§ 44. (Amended) A combined fabric wrap and carry bag comprising: ~~The combined fabric wrap and carry bag of claim 30.~~

a first piece of fabric having an outer perimeter;

a first pocket smaller than the first piece of fabric, affixed along an edge of the pocket to the outer perimeter so as to extend outwardly from the outer perimeter;

at least one carrying strap having at least one end affixed at least proximal an opening of the first pocket; and

a separate second piece of fabric smaller than the first piece, overlapped on the first piece proximal to the outer perimeter and affixed to the first piece on all but one free edge to form a second pocket;

whereby the first pocket forms a carry bag into which the first piece of fabric may be inserted.

whereby the second piece of fabric inverts inside-out relative to the first piece of fabric to form with a portion of the first corner of the first piece of fabric a second carry bag into which the first pocket and a remainder of the first piece of fabric may be inserted; and

wherein the at least one carrying strap is a shoulder strap at least a foot long and only partially protrudes from the pocket without the second piece of fabric being inverted, the at least one shoulder strap having a second end captured between the first piece of fabric and the pocket where the first piece of fabric and the pocket are irremovably secured together opposite an open mouth of the pocket.
